transport Ltd.***

About us

Kompas International Transport Company Ltd. is a family owned company which has been in the market for 25 years.

Basic activities are business of international freight forwarding and international transport services. Since 2014 we have broadened the business from road to sea and air freight.

We nurture and invest in our reputation with providing safe and complete service, always keeping our promises.

About us

Thanks to our logistics services and many years of experience we have gained respectable reputation among our clients and partners.

With our own fleet of 40 vehicles, we have great experience in road traffic. We are particularly specialized for express shipments. In any part of Western Europe, we can react very quickly for emergency shipments.

All vehicles are monitored 00-24h.

KOMPAS provides you with services of organization of freight shipments in import and export from door to door for any destination in the world.

Vision

- With continuing our educational and learning process, we want to stay on top, and continue to provide high quality of services to our clients.
- The development of our company needs to be natural and balanced and based on monitoring the growth of our oldest partners and attract new clients from the market.
- The experience and knowledge acquired in business that are already developed in the markets all around the world, should strive to be applied in Serbia.

Strategy

- By constantly upgrading the quality of our business development, we want to provide our clients with a continuous growth in the market.
- The long-term partnership relationships based on mutual trust, and loyalty and mutual respect can benefit everyone.
- Our strategy is to constantly pay attention to the wishes and taste of clients, and have our employees and managers provide with collectivism in the groups and build teamwork within our company.
- We insist on high responsibility parallel to significant investments in professional education and motivation.
